

BOOSTER™

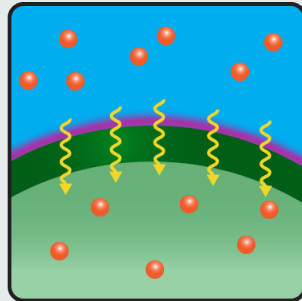

Enhanced Delivery of Active Ingredients

In Pharmaceutical, nutraceutical and cosmetic markets, product efficacy depends on the delivery of the active ingredient. However, it is sometimes challenging to ensure efficient delivery of the active ingredient. To overcome this challenge, BOOSTER™ offers a new technology to enhance uptake of the active ingredient.

How BOOSTER™ Works

No BOOSTER™

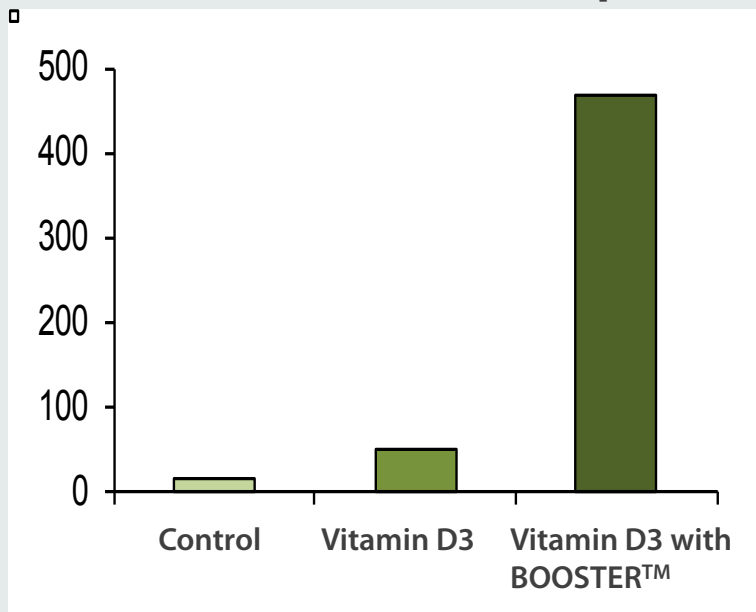

With BOOSTER™

Apply BOOSTER™

Vitamin E hand cream
Facial Pad Moisturizer
Cobra venom analgesic
Vitamin D supplements
Smoking Cessation products
Nutritional supplements
Topical Botulium (Botox)
Herbal Supplement Enhancement
And more....

Robust Vitamin D₃ Absorption

Male mice were administered Vitamin D₃ (25000 IU) along with control or BOOSTER™ supplemented diet.

Source: Animal Facility and Bioanalytical and Pharmacokinetic Analysis Facility, GVK Biosciences Pvt.Ltd. Biology Division, 28 A, IDA, Nacharam, Hyderabad 500 079 India.

Efficient Cosmetics with BOOSTER™

Independent analysis showed that several weeks of BOOSTER™ treatment improved the effect of Deep Moist Milk Chamomile and Deep Moist Skin Toner. Additional moisturizing effect was observed along with improved skin tone and tightness.

Let's start enhancing your product
